

Arduino 9DOF Sensor Module

Model: GY-85

Features:

- Nine axis modules (Three-axis gyro + three axis acceleration + tri-axial magnetic field)
- Chip: ITG3205 + ADXL345 + HMC5883L
- Power Supply: 3V-5V
- Communication Mode: IIC communication protocol (fully compatible with 3v-5V systems, including LLC circuit)
- Color: Blue
- Size: 23 x 18mm

Schematic:
